gorgias + recharge

# Manage subscriptions and customer service from one place

Integration Details | Installation Guide

Integration features

- Cancel, refund, skip, un-skip, and re-activate Recharge subscriptions directly in Gorgias

- Display customer Recharge details next to every ticket so agents can quickly answer subscription questions

- Automate common subscription requests with Macros and Rules based on Recharge variables

Why choose Gorgias?

- Provide fast, omnichannel support for your customers that's easy for agents to manage

- Connect your entire ecommerce stack to give agents the context they need to provide exceptional, personalized suopport

- Reduce repetitive questions so your agents can focus on the most important conversations
